I've never been to any political rally ever.

Did not care about politics until 2016, but still only barely cared about it.

The last 4 years.... and this sham election though...

**I will be in front of Congress Tuesday night to make sure these traitors do not get away with this**

Well over 74 million voted for him. So guessing 75 or even 76 is definitely on the table.

Say that 1/3 decided “Okay, time to be a cuck, lie down, and take the communism in the ass.”

75>50.

Say that 1/3 has declared going to the protest.

50>16.

Say that only 1/3 ends up actually going.

16>5.

**Then** say that only 1/3 is coming armed.

That’s still over 1,500,000 patriots, and that’s just the **doomer** version.

This isn’t even considering that many patriots are definitely going to bring spares, and still others will take weapons from incapacitated Antifa members.

We could be looking at anywhere between 2 million or 3 million patriots, and God willing even more.

Probably more like 80-100 million honestly. Think of all the Trump votes that were simply destroyed leftist mail carriers and poll workers. Those ones never make it into any vote counts. Think of all the votes which were electronically "destroyed" by being deducted from Trumps totals across the country - it's millions, we know this directly from the election night data. Then there's the millions of votes which were swapped by one means or

another. And that doesn't even begin to touch on those who Would have voted for him if they weren't brainwashed by the media, many of whom have even recently seen the light, especially with the Hunter story being suppressed.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ 3 ▼

= [fbeeee](#) 3 points 10 days ago +3 / -0

Assuming that 80m voted, lets be *really* pessimistic and only assume 1 out of every 50 of those voters decided to go. That's 1.6m people. If only 1/100th of those are armed (because you know there's gonna be habitual bootlickers with that much people), that's 16,000 armed people. About the size of 1 army division. Not great for a bloodbath in DC (in minecraft).

But these are super mega ultra doomer numbers. The armed numbers gets way higher if those chances go up even a little. As mentioned above, if over a million people show up armed, You're Winner.

I'd go with, they probably didn't mention it. But either way if nothing happens and Biden gets in office we are in big trouble. We'd all be working for the government then.

Agreed. The reason BLMTIFA are successful is that they have nothing to lose. Job, family, property etc. all they have is anger. And whatever money they got from Soros and DNC filter.

We don't have that. We actually have responsibilities. And I'm not dooming here. It's reality. If people think that the evil cockroaches that have tried to undermine Trump and the Constitution for 5 years (maybe 30+ years) are just going to cave because a lot of Patriots show up all pissed off and armed, they need to check their selves.

I hope it's over quickly.

That's a good point analPEDEsia. I think a large presence will be the start of a movement and the real action would take place on a local or state level. But it has to start somewhere, and there's still a chance violence won't have to be used. A small chance.

People need to bring drones and get drone footage of the crowd. I dunno why but it seems to be impossible to find accurate counts of Trump rallies and marches and there's rarely adequate pictures or videos.

I booked a 4 star hotel near the whitehouse for the event, it was \$76. I became concerned it was near BLM plaza and booked a marriott on the metro two days ago...it was ~\$120. Hate to say it, but hotels are not filling up....people need to get in gear.
